## MOTHER'S FRIEND

makes childbirth easy and almost painless, by preparing the system for parturition, thus assisting Nature, and shortening labor. The painful ordeal of childbirth is robbed of its terrors, and the danger thereof greatly lessened, to both mother and child. The period of confinement is also greatly shortened, the mother rested, and the child fully developed, strong and healthy. Morning sickness, or nausea arising from pregnancy is prevented by relieving the stomach from the pressure brought to bear on it by the expanding organ, and by which it is influenced through sympathy. As pregnancy advances, the breasts enlarge, become swollen, hard and tight. Long before the child is born, they are preparing for the secretion of milk. It is important to successful child rearing that these glands receive early consideration. Mother's Friend softens the skin, relieves the pressure, and facilitates the secretion of Life Fluid. Undeveloped and occluded ducts, and breasts hard-caked shortly after delivery, are the result of non-treatment and likely to culminate in Mammary Abscess from which the patient suffers excruciating pain and is left with these functional organs permanently impaired. Mother's Friend is always applied externally and rubbed into the flesh over the region of pain. Softness, pliability and expansion are given to the muscles, tissues, fibres and sinews, allowing the elasticity necessary to bring comfort while with heavy burden, and cause easy issue of the child. Try it. Of all druggists \$1.00. Our book "Motherhood" free.

## ALICE BAKER BAD AGAIN.

Alice Baker, a well known soiled dove, was presented in police court this morning, and for a few moments smiled with happiness. She was charged with a plain drunk, but it was learned that while in her cups she broke several window panes out at Mr. F. Kamleiter's and her expression changed. The court suspended the one dollar fine for a drunk and allowed the warrant to be amended. She was then fined \$5 and costs. She informed the court that the only reason she had for breaking out the glass was that she "was mad."

## THREE KILLED.

WRECK ON THE ILLINOIS CENTRAL AT MEMPHIS TODAY.

There was a fatal wreck in the Memphis yards this morning early when train No. 102, which arrives here at noon, struck a switch engine. It was coming in from New Orleans. From meagre particulars of the accident it was learned that the switch engine had gotten out on the main line and could not take a siding quick enough to prevent the collision. The engineer and fireman of the switch engine were instantly killed and the baggage man on the passenger killed also.

The train crews are changed at Memphis and the crew that brought the train through Paducah did not know the names of the killed as they left a little late and were unable to hear much about it. The train was partially wrecked by the accident, which made it late into Paducah, not arriving until 1:30 o'clock.
